Guidelines for reporting averages on 2026 entry forms:

USBC Sanctioned Bowlers;

A. The bowler is required to submit the previous season's highest average of the single USBC league average based on a minimum of 21 games.

B. When the previous season's average is used, and at the time of bowling an entrant has a current average for 21 or more games that is 10 pins or more higher than the prior season's average, the current average must be used.

C. If the USBC sanctioned bowler has a Knights of Columbus Tournament average he must use the higher average of those two, regardless if it is 10 pins or less. If after your name there is a zero, you do not have enough games to qualify for a Tournament average and your USBC average is used.

Non League Bowlers without a Knights of Columbus 3-year Tournament Average;

You must use a base average of 160.

Non League Bowlers with a Knights of Columbus 3-year Tournament Average;

You must use the K of C Tournament Average that is listed below. If after your name there is a zero, you do not have enough games to qualify for a Tournament Average and you will have to record a 160 as your average.

The Knights of Columbus Tournament average is based on the previous three tournaments you have bowled. This PDF previously available on the website is not available currently but will be available at the Tournament . If you do not have 3 years bowled, to qualify for a tournament average, you must use either 160 or your USBC sanctioned average.
